INTRODUCTORY.

1907.

THIS is the twentieth regular annual edition of Husted's Oakland City Directory, and it is presented to the public with the assurance that it is excelled by no similar work in America. It embraces all the features found in the largest metropolitan Directories and many other valuable things which are lost sight of in the larger cities of America.

After completing his labors on the 1906 edition of the Oakland Directory, and before the work had been finished by the printers, Mr. F. M. Husted died after having published the Oakland Directory since 1887.

The enormous task of making the directory then devolved upon the widow which, with the rapid influx of population and phenomenal growth of Oakland, have enlarged the work to such an extent that it became too much for any one person, and Mrs. F. M. Husted has associated with her the National Directory Publishing House of R. L. Polk & Co., which has been engaged exclusively in directory making for more than a third of a century. The business will hereafter be conducted under the firm name of "Polk-Husted Directory Co." This consolidation makes one of the strongest directory publishing houses in the country, and brings to the Oakland Directory all the advantages of competent and experienced employes, and a thorough system backed by ample capital, and it is therefore reasonable to assume that the Oakland Directory for 1907 will be found more complete, more accurate and reliable than ever before.

The Polk-Husted Directory Co. will not only publish the Oakland City Directory, but a large number of other city directories throughout California, and will become one of the most substantial publishing houses of Oakland.

It is the intention to send a copy of the Oakland Directory to every directory office in the United States, where it may represent Oakland and its people, its institutions and its citizens.

A directory library will be maintained at the directory office, No. 906 Broadway, Oakland, for the free use of the patrons of this directory and for the public generally. Here may be found the directories of all the principal cities of the United States and Canada.

POPULATION.

Growth in population is the standard measurement of a city's success and it is, therefore, always highly interesting to those who have the welfare of the community at heart. The present population of Oakland will be intensely interesting to the people not only of Oakland but generally to all people in the United States, for the eyes of the world are upon Oakland on account of the wonderful changes that have taken place here.

The United States census gave Oakland a population of 102,000 seven years ago. Oakland has been growing constantly ever since. A year ago it had a population estimated at 140,000. This directory contains 70,115 names of male adults of Oakland, 15,555 for Berkeley, and 11,324 for Alameda. Accepting the prevailing theory that there are three women and children to every name which appears in the directory, the population of Greater Oakland at the present time is 300,948. This does not include the Chinese or Japanese element.

This wonderful increase in population ranks Oakland as one of the largest cities on the Pacific Coast, and the largest trade center west of the Mississippi excepting St. Louis, and one of the important cities of the United States. This rapid growth is not of mushroom character, but has been wrought by conditions which will necessarily make it progressive. The business of Oakland is resting on a solid, substantial foundation, with one of the finest harbors in the world, midway between the large cities of the Southern Pacific Coast and those of the Northern Pacific Coast, and it must necessarily continue to grow and prosper.

The publishers wish to express thanks for the courtesies extended to their employes and the liberal patronage bestowed upon the work.

Respectfully,

THE PUBLISHERS.

Polk-Husted Directory Co.

POSTAL RATES AND CLASSIFICATION OF MAIL MATTER.

Domestic mail matter, that is, mail matter sent in the mails from some post office within the United States to some other post office within the same, is divided into four classes, as follows:

First-Class Matter.

RATE OF POSTAGE: TWO CENTS FOR EACH OUNCE OR FRACTION THEREOF.

Written matter, namely letters, postal cards, and all matter wholly or partly in writing, whether sealed or unsealed—except as provided below—and all matter, sealed or otherwise, closed against inspection, is of the first class.

Postal Cards—No printing or writing other than the address allowable upon the address side; nor may anything except an address label be pasted or attached to any postal cards. The words "to be called for," or any proper description of the person or place addressed may be written or printed thereon as part of the address. Any other writing, mark or seal placed on the address side renders it unmailable except at letter rates.

Private Mailing cards—Mailing cards other than government postal cards may be sent through the mails at the rate of one cent apiece, payable by stamps to be affixed by the sender. Written messages may be sent on these cards when they are made to conform to the following restrictions: Such cards must be approximately of same form, quality and weight as the stamped postal cards now in general use, not exceeding 3½ by 5½ inches, nor less than 2 15-16 by 4 15-16 inches. The color of the cards may be white, cream, light gray, or shade of the government card. The card must bear these words in print on the addressed side: "Post Card." There may be on the message or address side advertisements, illustrations, or other matter printed in black or colors. Ordinary mailing cards, when the message is entirely in printing, are not restricted to the above conditions. They may be of any size, but are not entitled to the words "Post Card."

Second-Class Matter.

Second-class matter is of two kinds. First, that sent by publishers or news agents; second, that sent by other than publishers or news agents.

RATE OF POSTAGE TO PUBLISHERS AND NEWS AGENTS: ONE CENT PER POUND OR FRACTION THEREOF. TO INDIVIDUALS, ONE CENT FOR EACH FOUR OUNCES OR FRACTION.

Mailable matter of the second-class embraces all newspapers and other periodical publications which are issued at stated intervals and are within the conditions named in the statute.

STATUTORY CHARACTERISTICS OF SECOND-CLASS MATTER.

First—It must be regularly issued at stated intervals, as frequently as four times a year, and bear a date of issue and be numbered consecutively.

Second—It must be issued from a known office of publication.

Third—It must be formed of printed paper sheets, without board, leather, cloth or other substantial binding, such as distinguish printed books for preservation from periodical publications.

Fourth—It must be originated and published for the dissemination of information of a public character, or devoted to literature, the sciences, arts, or some special industry, and having a legitimate list of subscribers.

What is Permissable to Be Written or Printed—The name and address of the person to whom the matter shall be sent; index figures of subscription book, either printed or written; the printed or written name and adress of the publisher or sender, or both, and written or printed words or figures, or both, indicating the date on which the subscription to such matter will end; the correction of any typographical error; a mark, except written or printed words, to designate a word or passage to which it is desired to call attention; the words "sample copy," or "marked copy;" and publishers and news agents may enclose in their publication, bills, receipts and orders for subscription thereto.

Third Class—Printed Matter

RATE OF POSTAGE: ONE CENT FOR EACH TWO OUNCES OR FRACTIONAL PART THEREOF, AND MUST BE FULLY PREPAID BY STAMPS AFFIXED

Printed Matter—Is defined to be the reproduction upon paper by any process except that of handwriting, or by the typewriter, of any words, letters, characters, figures, or images, or of any combination thereof, not having the character of an actual personal correspondence. Seeds, bulbs and scions are included in third-class matter.

Further Points of Definition—Reproductions from originals, produced by mimeograph or similar mechanical process, easy of recognition, are entitled to pass in the mails in unsealed envelopes as third-class matter, when mailed at the post office window in numbers of at least twenty identical copies.

Proof sheets and corrected proof sheets and manuscript copy accompanying the same are rated as third-class matter.

Permissible Writing—Upon matter of the third class, or upon wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text, and may correct any typographical error. There may be placed upon blank leaves or cover of any book or printed matter of the

third class a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter mailable as third class, there must be left on the address side space sufficent for a legible address and necessary stamps.

Fourth Class—Miscellanous Matter.

RATE OF POSTAGE: ONE CENT FOR EACH OUNCE OR FRACTIONAL PART THEREOF.

Mailable matter of the fourth class embraces all matter not embraced in the first, second and third class, which is not in its form or nature liable to destroy or deface or otherwise damage the contents of the mail bag or harm the persons of any one engaged in the postal service, and is not above four pounds in weight for each package thereof, except in case of single books weighing in excess of that amount.

Examination—All matter of the fourth class shall be subject to examination.

How Enclosed—Articles of merchandise must be wrapped or enclosed in such a manner that their character can be easily ascertained. In the case of such articles as medicine, powders, tobacco, cigars, fancy soaps and the like, postmasters will accept them when mailed in their original wrappers and so sealed or enclosed as to properly protect the articles, so that each package in its simplest mercantile form or unit of measure may be examined.

Permissible Writing or Printing Upon or with Fourth-Class Matter—With a package of fourth-class matter prepaid at the proper rate for that class, the sender may enclose any mailable third-class matter, and may write upon the wrapper or cover thereof, or tag or label accompanying, the business address, preceded by the word "from," and any marks, numbers, names or letters, for purpose of description, or may print thereon the same and any printed matter not in the nature of a personal correspondence.

Positively Unmailable—Poisons, inflammable or explosive substances and other substances exhaling a bad odor. All alcoholic liquors, live animals or reptiles, dead animals not stuffed, live insects, except bees, comb honey and fruits or vegetable matter liable to decay; also letters, pictures or other articles of obscene or indecent character (sealed or unsealed), letters or circulars regarding lotteries or fraudulent schemes of any kind, and letters or other articles upon the outside of which appears anything of a scurrilous, defamatory or theratening character.

Foreign.

THE UNIVERSAL POSTAL UNION

includes nearly all foreign countries. The classification of mail is as follows:

Articles for or from foreign countries, except Canada and Mexico, are classified as "Letters," "Postcards," "Newspapers," and other printed matter, "Commercial or business papers," and "Patterns or samples."

The Rate of Postage to the countries and colonies comprising the Universial Postal Union (except Canada and Mexico), are as follows:

Letters, per 15 grams (½ ounce) 5 cents.

Postal cards, each, 2 cents.

Newspapers and other printed matter, per 2 ounces, 1 cent.

Commercial Papers—Packets, not in excess of 10 ounces, 5 cents. Packets in excess of 10 ounces, for each 2 ounces or fraction thereof, 1 cent.

Samples of Merchandise—Packets, not in excess of 4 ounces, 2 cents. Packets in excess of 4 ounces, for each 2 ounces or fraction thereof, 1 cent.

Mexico and Canada.

Mexico—Matter mailed in the United States addressed to Mexico is subject to the same postage rate and conditions as it would be if it were addressed for delivery in the United States, except that articles of miscellaneous merchandise (fourth-class matter) not sent as bona-fide trade samples, are required to be sent by "Parcels Post." See below.

Canada—Matter mailed in the United States, addressed to Canada, is subject to the same postage rates and conditions as it would be if it were addressed for delivery in the United States. The following articles, however, are absolutely excluded from the Canadian mails, without regard to the amout of postage prepaid, or the manner in which they are wrapped, viz: All sealed packages other than letters in their usual and ordinary form; all packages (except single volumes of printed books) which weigh more than 4 lbs, 6 oz.; "Police Gazette" publications which violate any copyright law of Canada.

Merchandise may be sent in the mails to Canada at domestic rates of postage, when not sealed against inspection, subject to the custom duties of that country.

Parcels Post.

Unsealed packages of mailable merchandise may be sent by Parcels Post to Germany, Jamaica, Barbadoes, the Bahamas, British Honduras, Mexico, the Leeward Islands, the Republic of Colombia, Costa Rica, the Danish West Indies and Salvador, British Guiana, Windward Islands and Newfoundland at the postage rate of 12 cents per pound

General Information.

Application for missing letters, papers and packages mailed at Oakland for other postoffices, for mail matter that is held for postage, or is for any other reason unmailable, should be made at the office of the Superintendent of Mails.

For entry of second-class matter or for information concerning the same or for letters which the senders desire to recall by telegraph before delivery is made to address, application should be made at the Assistant Postmaster's room.

For stamped envelopes, postal cards, etc., in quantities of 500 or over, application should be made to the cashier.

Immediate delivery of mail matter by a special messenger may be secured by affixing a special delivery stamp in addition to the regular postage at any hour between 7 a. m. and 11 p. m., including Sundays.

Inquiries respecting the arrival and departure of mail should be made at the office of Superintendent of Mails.

Inquiries respecting the delivery of mail should be made at the office of the Superintendent of Delivery.

For redemption of stamped envelopes which have been spoiled in directing or printing, apply to the Retail Stamp window.

For rental of lock boxes or drawers, apply to the Inquiry window.

For employment of clerks or carriers or information concerning the same, application should be made to the Secretary of the Local Board of Examiners for the Civil Service Commission, or Wm W Robson, General Postoffice.

Penalty of Evasion of Payment of Postage—Any person who shall conceal or inclose matter of a higher class in that of a lower class and deposit or cause the same to be deposited for conveyance by mail at a less rate than would be charged for such higher class matter, shall, for every offense, be liable to a penalty of $10.00.

Detention, wrong delivery or loss of mail matter should be reported immediately in person or by letter to the Postmaster. The complaint should be accompanied, if possible, by the envelope wrapper or postal card in order that an examination may be made of the address and post marks which is essential to satisfactory results.

All transient residents receiving or expecting to receive mail at the general delivery should instruct their correspondents to add to the address of same "General Delivery," which will save from twelve to twenty-four hours in delivery.

All valuable letters should be registered which every carrier is authorized to receipt for at the door of the sender.

CLARK'S

SANATORIUM

STOCKTON CALIFORNIA

UNDER THE MANAGEMENT OF **DR. ASA CLARK,** MEDICAL SUPERINTENDENT

DR. MARY C. TAYLOR, Assistant Physician

JAMES M. ANDERSON, Business Manager

PHONE MAIN 311

P. O. BOX 297

CLARK'S SANATORIUM

For the care and treatment of Mental and Nervous Diseases, and of Morphine, Cocaine and Alcoholic Habits, was established in the early seventies by Dr. Asa Clark.

During the fourteen years of his superintendency of the Stockton State Hospital the institution was in charge of his son, Dr. F. P. Clark.

Dr. Asa Clark having resigned as Medical Superintendent of the Stockton State Hospital, he has again resumed personal control of his Sanatorium.

The Sanatorium is located on a tract of land of forty-two acres which is utilized for dairy and poultry purposes for the institution.

The food supplies and the cooking are of the best. The buildings are two stories in height. Their sanitary conditions are perfect. The corridors are wide, airy and light. The appointments are modern and comfortable. We are fully equipped with all modern Electric, X-Ray Massage and Electric Therapeutic Appliances.

Any patient may have a special attendant, if necessary, at a moderate additional cost. Charges moderate.

Address for further information,

DR. ASA CLARK, Medical Superintendent

OR

J. M. ANDERSON, Business Manager

The Architecture of Printing

DURING recent years there has been a gradual but very decided advance in the quality and practical value of the catalogue and advertising matter issued by leading firms. This has been due to the improvements in photo-engraving processes, making possible more truthful and attractive illustrations. An increasing appreciation of the potentiality of the better sort of advertising matter has also been influential in raising the standard. The principal factor, however, in this upward movement has been the rapid development of the designing departments of the leading establishments of the country, and consequent tendency of buyers to seek the advice and co-operation of designers and engravers. Why should not the business of catalogue, birdseye view, label and other designing be put on the same plane as that of the architect of buildings. Try coming direct to the printer's architect?
